### Spoken English class

Department of Mathematics Conducted spoken English classes to First year students on 27/10/2017. Mr. Anand Kumar T P of Race Spoken English, Kayamkulam has taken a class on importance of English language in career development and most common reasons why people around the globe opt for spoken English.

People who speak English fluently have more job opportunities. Businesses need employees who can communicate effortlessly with English-speaking partners and clients. In addition, entrepreneurs can access a far wider range of customers online by using English. In the U.S. or other English-speaking countries, people who can't speak English are at a real economic disadvantage. Since English is the language of science and technology, English speakers have more opportunities to work with others in these fields and to share ideas and innovations. MS. Sruthy P S delivered Vote of Thanks. 39 students participated in the class.
